Book of Revelations

“...and the stars in the sky fell to the earth like a fig tree dropping its unripe figs when shaken by a fierce wind. The sky was split apart like a scroll being rolled up, and every mountain and island was moved from its place. Then the kings of the earth, the very important people, the generals, the rich, the powerful, even the slave and

“free, hid themselves in the caves and among the rocks of the mountains. They said to the mountains and to the rocks, “Fall on us and hide us from the face of the one who is seated on the throne and from the fury of the Lamb, because the great day of their wrath has come, and who is able to withstand it?”

2 Problems with All Prophecies

1. **NOTHING** is set in stone or predetermined.
2. By their very nature, prophecies are a study of effects, not causes.

A NOTE FROM THE UNIVERSE

When the external begins to define the internal, instead of the internal defining the external, one begins living as a mortal rather than as a god.

Trust me, "as a god" is better.

*Boom,
The Universe*

What gave these prophecies rise?

The anticipated effects of the “evolution of consciousness” – the effects of enlightenment.

Why the potential for planetary chaos?

Inner storms creating outer storms.

The END of Blame, Excuses, Victims

“Must not have been meant to be...”

“God had other plans...”

“You hurt my feelings...”

“How could I know my spouse would...”

“It’s not fair that the wealthy get tax breaks...”

***“If the government can put people
on the moon, what
about healthcare???”***

BARACK OBAMA

From Obama's Inauguration Speech

“That we are in the midst of crisis is now well understood...

“Our economy is badly weakened, a consequence of greed and irresponsibility on the part of some...

“...but also our collective failure to make hard choices and prepare the nation for a new age....”

HEY ... Why US??

A NOTE FROM THE UNIVERSE

You do know, of course, why you're here—don't you?
Because you couldn't resist the challenge.
Nothing in all creation, not in any sphere of the Universe, compares to being born into time and space without any recollection of your past; having to find your own way when lost, your own courage when frightened, and the infinite powers at your disposal when challenged; left to the elements to rediscover your supremacy over them; driven by your passions so that you might rise above your humble, naked beginnings, and ultimately see through the illusions that had trapped you. To find yourself, once again, high upon the throne of thy Kingdom come, whence it all began.

The Universe

Well, either that... or you were dared.

In the Beginning...

- Why are you here?
 - ✓ You chose to be!
- Sound farfetched?
 - ✓ What's the alternative?
- Why choose NOW?
 - ✓ Most exciting time in *HISTORY!*

We Live in a Dream World!

A NOTE FROM THE UNIVERSE

Courageous is the soul who adventures into time and space to learn of their divinity. For while they *cannot* lose, they can think they have, and the loss will seem intolerable. And while they *cannot* fail, they can think have, and the pain will seem unbearable. And while they *cannot* ever be less than they truly are—powerful, eternal and loved—they can think they are, and all hope will seem lost.

And therein lies their test. A test of perceptions: of what to focus on, of what to believe in, in spite of appearances.

Courageous indeed... the PRIDE of the Universe, and I should know.

DOOMS DAY...

The Ultimate Adventure!

From *Choose Them Wisely*....

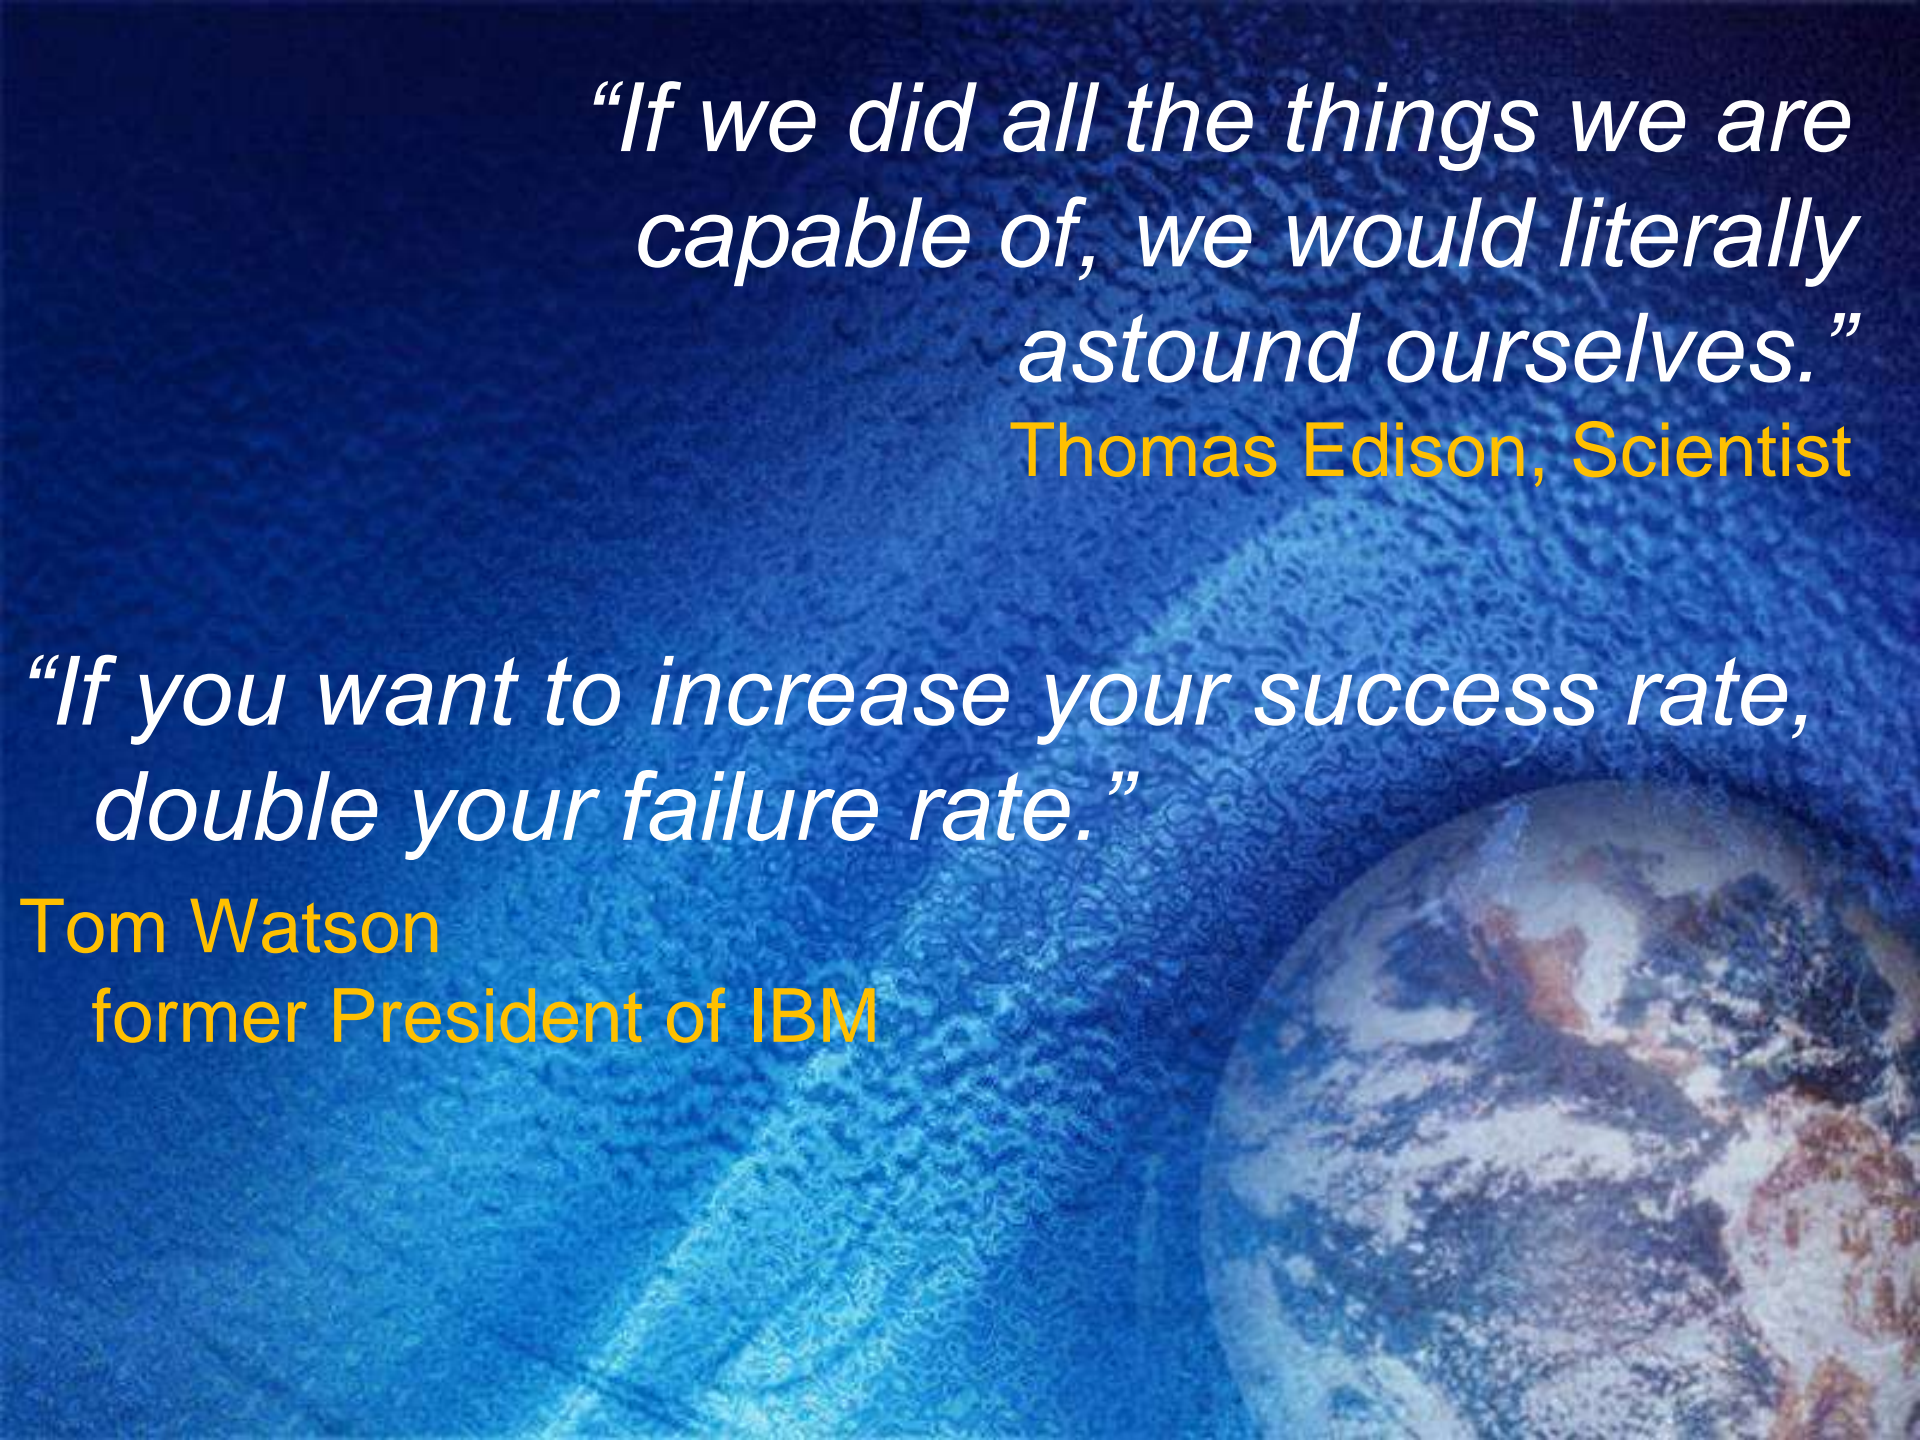

“...what if, painful as they may *temporarily* be, we could choose to litter "the course" with obstacles on the sole condition that they could all be overcome? A playing field that held the potential for the realization of our *greatest* hopes and dreams, and that no single peril we might face would be insurmountable.

“Now wouldn't that be an *adventure??!*”

5 Tips on “*Thriving*” the “Apocalypse”

1. Don't be afraid.
2. Be responsible.
3. LOVE yourself.
4. Follow your dreams.
5. Keep busy!!!

“If we did all the things we are capable of, we would literally astound ourselves.”

Thomas Edison, Scientist

“If you want to increase your success rate, double your failure rate.”

Tom Watson

former President of IBM

What to expect during the transition?

In Next 3 - 7 Years:

- ✓ Inner storms will continue brewing, creating outer storms.
- ✓ Metaphysical teachings will continue to go mainstream .
- ✓ Government to get much bigger, before getting much smaller.
- ✓ Stabilization and rebound of financial markets through private innovation.
- ✓ Gay marriages will increasingly be accepted nationally.
- ✓ The more spiritual we become the more technologically sophisticated we'll become.

What to expect after the transition?

In 7-50 Years from Now:

- ✓ New “civilization-changing” technologies to be invented.
- ✓ School systems to be redefined; more specific learning tracks, mentorships, graduations earlier for real world training.

- ✓ Selfishness will be seen as a virtue, and “the individual” revered.
- ✓ Fewer laws and smaller governments.
- ✓ Drugs will become legal, but will be very unpopular.
- ✓ Animals will have their own Bill of Rights.
All forms of animal testing will cease to exist.
- ✓ Everyone on planet will subscribe to

Notes from the Universe 😊

A Note from the Universe

Brace yourself! It's time for more "good news, bad news."

The good news is that life is just an illusion. A playground of sorts for spiritual adventurers to learn of their divinity. Where absolutely anything can happen, thoughts become things, and dreams do come true. It's like the ultimate test pilot's paradise, where they can crash and burn, and do it again. Soar and learn. Rise and fall. Conquer and stall. Or just fly in circles, sometimes on purpose, sometimes not. All the while lifting the entire Universe—every imaginable form of consciousness—higher into the light for their tears-and-laughter-bought lessons.

The bad news?

You're the test pilot.

Our hero and Ace,
The Universe

Ha, "bad news." You're an unlimited being of light; loved and adored; without beginning or end; invincible, unlimited, almighty... Bad news? I don't think so.
