"I am reminded constantly that I have a purpose in being here... what if I don't know what that purpose is or I feel like I've already achieved that purpose? Am I wasting my time?"

"Are there aliens among us?"

"I know you've done a lot of research on past lives, both in the field and with in-depth research, however, much of your content feels like theory and conjecture. How do you really KNOW?"

"Please talk about parallel universes."

“What is your take on romantic relationships? WHY ARE THEY SO HARD? What is the whole point? Have you chosen not to be in one, or have you given up on them? It just seems to me that even the greatest masters and self-help gurus seem to struggle with them as much as the rest of us do.”

“Why is it easier to believe the bad, and how can we change this?”

“What's the best thing I can do to help my children understand this stuff?”

“The good word says we as individuals are in the right place at this particular time, even if we feel empty. Why do we feel so strongly that we should be somewhere else, doing something else?”

"What are your thoughts on Astral projection (Astral Travel/Out of Body experiences)?"

"How can we focus on being more positive than negative?"

"What can we do daily to take better care of ourselves?"

"Through alternative news, I have recently learned of an elite group of bankers - the Bilderberg Group - owning our political system & mainstream media and with the Trilateral Commission and Council on Foreign relations all behind the crash of our economy, depopulation, 9/11, and simply evil agenda. I loved Obama until I learned he is owned by them too. It's frightening to see the intentional attack on the middle class, health system, dumbing down of our school systems and country. It feels paralyzing learning this information. How do I move forward? "

"How do we accept those in our lives for exactly who they are?"

"What do you hope to achieve by traveling the world and teaching what you know? What's in it for you, Mike, really?"

"Considering the world we live in today with everything in shambles; how can we maintain our mental well being, stay motivated and uplifted, and focus on positives when all around us is negatives?"

"How do you determine the best practice for healing from addictions?"

"Visualizing or hypnosis, is there a difference between the two?"

“What do you think about social justice and environmental justice and our democratic system, and how do you participate in it, how do you choose to relate?”

“How do we engage, using the Abraham Hicks’ principles???”

“How can I get my wife, husband, etc. to fall back in love with me?”

“Is feeling guilt a selfish act?”

“I have decided to engage my faith and I made a move “back home.” I have accepted a mission to “save” the wilderness in my part of Florida from continued corporate pollution... Yet, I think I may be in one of those “lull” periods that you speak about in your book, when the Universe is in action and while all around me “appears” as if nothing is happening and, worse, fear is prowling at the door of my heart that this leap of faith (based on solid data and funding from respected foundations) is poorly timed... and perhaps “futile”.... Yet: Here I am... out in the wilds of Florida because ‘I believe.’ Everything in my life seems to have conspired to bring me here and yet “my thoughts” are fraught with “what ifs” and I feel as if I am undermining or deflecting the best intentions the Universe has for me.... My question is: How do I actually ‘be still and know I am god’?”

"What are your thoughts on overpopulation?"

"How do you control phobias? Social anxiety?"

"I have strong intuition, it runs in my family... there have been times where I see death... or rather, I can see no more life in someone. In all the cases, the person did pass. How can I stay positive and focused on good things around me when I see something that is not good or positive? I've been struggling to rectify this. It's not like I can tell anyone."

"What one thing can a person do to make the biggest difference in their life?"

Guided Visualization....
